- SASS

## PROFILE

I am a frontend developer with 1 year of commercial experience and additional training with a mentor. I enjoy frontend development because I love creating visually engaging, user-friendly interfaces that make a positive impact on users' experiences. My goal is to become a full-stack developer, and I am currently learning Node.js. I'm also very interested in AI topics. I enjoy solving problems, working well with teams and constantly looking to grow my skills. I'm seeking a job that offers opportunities for development in a motivating, team-oriented atmosphere. To get to know me better, I invite you to visit my website: [www.dev-journey.pl](http://www.dev-journey.pl)
